Rev. James Cargo Discharged After Congregational Meeting

On Thursday, December 7th., at a congregational meeting of the United Church Charge, Minden, Carnarvon, Maple Lake, Rev. James Cargo was released of his pastoral duties.

The Lindsay Presbytery called the congregational meeting. Rev. H. Martin of Fenelon Falls acted as chairman; Rev. J. Reed of Sunderland was Secretary, while scrutineers were Rev. Price and Rev. Braadshaw.

The meeting opened with Robert Herlihey making a motion which read in short, that the Ses-

only members of the United Church could vote in this issue. Before the vote was taken a few people made use of the opportunity to voice their opinion.

It was quite evident that Rev. Cargo had many followers by those who stood up and spoke their mind. This was followed by a vote of confidence, by secret ballot. Out of 192 people in the Church, only 142 cast a ballot. The result was 91 against - 51 in favour.

Rev. James Cargo, known to all his friends here in Minden as "Rev. Jim" was very closely related with this paper, for he wrote the Column "What's It All About" for the past year and a half. This paper has deep regret that he now has to move out of the community. We would like at this time on behalf of his many friends wish him the very best in his next endeavours.

MINDEN PEE WEES EDGE

HALIBURTON 4 - 3.

On Monday evening the Minden Pee Wees travelled to Haliburton, and edged our good friends to the east 4-3. It was an exciting game from the drop of the puck, and a fight all the way.

The Haliburton club fell behind 4-1 by the end of the second period, but bounced back with two goals in the third period. However time ran out on them and they were not able to tally the equalizer.

In the first period the Haliburton club opened the scoring with Bain and Shell combining. Just five minutes later Dean Hewitt scored for Minden from Bob McIntosh. Before the end of the period Kim Hewitt scored on a solo play, to put the locals ahead.

Minden came out in the second period and scored two unanswered goals, Kirk Hewitt tucked his in at 5:25 and at 8:30 Bill Jackson scored from Kirk Hewitt.

The third period Haliburton took over and came very close to tying the score, Roberts and Lloyd each scored once.

SINC NESBITT NEW REEVE

IN STANHOPE

On Saturday, December 9th., Stanhope held their election, and when the ballots were counted, Since Nesbitt was declared the new Reeve. Mr. Nesbitt received 255 votes, while Gordon Sawyer, Reeve over the past year managed 181 votes.

Mrs. Elsie Bursey was voted in as Deputy-Reeve over Fred Brooks, 221 votes against 207.

For Council the voting went as follows: Eric Cross 257, John Down 211, Bill Cowen 187, Elvin Johnson 180, Verna Sawyers 90, Paul Dolbear 55. The first three men were named to council.

TORONTO GIRL FOUND GUILTY OF POSSESSION OF NARCOTICS

A 19-year-old Toronto girl, was found guilty Friday afternoon in Victoria County Court of having possession of marijuana and sentence was suspended for two years.

Cappe and three other persons, Joseph Wolfe, 22, Charles Goldberg, 21, and Karen Schwartz, 19 all of Toronto, were charged following an RCMP investigation at a children's summer camp near Dorset late in July.

It was the first narcotics trial to be held in Victoria County.

The terms of Miss Cappe's probation provided that she must live at home with her parents, report monthly to a probation officer and continue psychiatric treatment. An 11:30 p.m. curfew was also imposed.

In passing sentence, Judge Deyman said the Crown was successful in proving three things essential for a conviction.

Judge Deyman agreed with the prosecuting attorney that there has been a tremendous increase in the use of marijuana in recent years.

In the Cappe case, the judge said the most overwhelming factor is the defendant. He said he did not think sending her to jail would help.

The accused broke out into tears when she was found guilty and she sobbed continually while the judge passed sentence.

MAN AND HIS DOG FOUND DEAD IN CAR NEAR MINDEN

A former Minden man, 59-year-old Charles Francis of Brampton and his dog, were both found dead in a car near Minden Saturday afternoon.

Coroner Dr. F.E.A. Griffiths of Minden said the man and his dog died of carbon monoxide poisoning. Death is believed to have been accidental.

Police said Mr. Frances was found in his car about 1 p.m. Saturday. The car was parked in the driveway of his winterized cottage three miles southeast of Minden with the motor still running when it was discovered. Minden OPP were called by a neighbour Edward Pratt.

Police said a hole about a half-

inch in diameter was found in the muffler of the vehicle.

OPP said it appeared the victim had become drowsy from the exhaust fumes which had leaked through the floor of the vehicle. He got the car into the driveway of his cottage and fell asleep. His dog stayed with Mr. Francis and also died from the fumes.

Police said they did not know whether an inquest would be called.

MINDEN BANTAMS DROP

TWO MORE GAMES

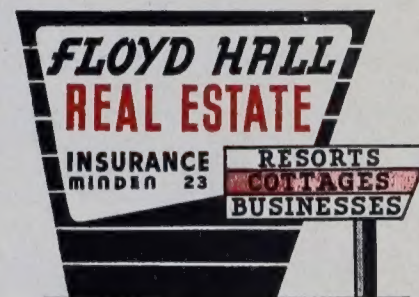

The Minden Bantams are having their problems, having not won a contest so far this season.

The locals dropped two more games this week, at the hands of the Bobcaygeon team on Saturday 7-5, and in Haliburton Tuesday evening, 14-1.

A little support at the gate by a few parents might install a winning will for these youngsters. Their next game is in Haliburton next Wednesday against the Kilmount team.

WILL SING CAROLS IN MINDEN

A group of children have organized to sing Christmas carols on the evenings of Thursday, Friday, Saturday, December 21, 22, 23.

They have informed the Progress that they will seek a silver collection, with all donations being turned over to the Kinsmen Club of Minden.

They ask for your kindness at this time of year, so they may contribute in this small way, to help others in need.

HERE AND THERE

by FENWICK FINCH

Last Wednesday afternoon Fenelon Falls got a bit of a black eye — service wise. An accounting seminar was being held at the Hydro Area office and was being attended by groups from Cannington, Minden, Lindsay and other areas. Everything went off smoothly until it came time to eat. Nothing open in the village, the group had to drive to Lindsay in order to eat.

* * *

A word to Snowdon Township — how about a little sand on the Gelert road from Minden to Highway 519? The road last Sunday, especially the hills, was real treacherous. How about it Ralphie boy?

* * *

An old friend of mine dropped in over the week-end, J. Luthor Whipsnade. We were talking over old times and he mentioned a friend of ours — "he used to be an old Indian fighter." I asked Luthor what he meant, "old Indian Fighter" — "of course he was" replied Luthor — "he used to fight old Indians around Lindsay."

* * *

The word has it that my good friend Jack (Esso) Austin put the nippers on the Peterborough Bingo for about six bills. Now, maybe I can get this fishing trip to Howland Junction that was sponsored by Jack; and which he declared me a winner. I've been waiting over a year to collect and now seems like a good time.

* * *

In this day of old re-runs and violence on T.V. it is a pleasure to watch and listen to a programme such as the "Hymn Sing" on CHEX Sunday at 5:30.

This talented group of young singers from Winnipeg have a delightful way of presenting their programme. Their voices are well blended and balanced and by watching their facial expressions it can be easily seen that they enjoy what they are doing.

If you are looking for a relaxing half hour — these young people can give it to you.

* * *

While we are on the subject of TV I watched Charles Templeton as he interviewed three women and got their opinions of Canadian males. They seemed to bemoan the fact that we Canadians were not as romantic as the European male — that they even missed the little intimate touch on their posteriors that are handed out by gentlemen of the Italian vintage. They sat in their mini-skirts, half way up their thighs and I couldn't help but wonder what their reaction would have been if some male had slipped a pinky onto their exposed thigh or had given their tails a little squeeze — I'd be willing to gamble the girls would forget what they were talking about and the poor male would be standing in front of a magistrate trying to explain his groping.

* * *

There is something I have wondered about for some time. With all the scientists we have and all the scientific discoveries howcum nobody has come up with answers to why a woman's slip keeps coming down and men's shirts keep creeping up.

Christmas holidays will soon be here — road conditions aren't too good and could get worse — drive carefully so that your families will get the best Christmas gift ever — YOU!

So much for this week — speaking of scientists — think about this until next week — "they haven't been able to come up with a more dependable oral contraceptive than the word "NO".

Fenwick

MORE THAN 1 MILLION TREES PLANTED IN LINDSAY DISTRICT IN 1967

Although weather conditions this past summer may have been distasteful to the tourist, they contributed greatly to the excellent survival of over one million trees planted this year. A total of 814,000 trees were planted on Crown Lands in this district this year, and an additional 231,000 were planted on privately-owned lands under the Woodlands Improvement Act. All of the planting on private lands was located in Peterborough County under this Act.

Although the vacationer may be dreaming of a long sunny summer in 1968, may we be excused if we hope for at least fairly regular periods of rainfall to help our "little-ones" along their road to the sawmill.

DID YOU KNOW?

- That scaling is measurement to determine the amount of wood cut in an area so that Crown timber charges can be assessed?
- That entire trees are now skidded to a clearing, cut up, and loaded on trucks to be hauled away to the mill?
- That machine-power has largely replaced the use of musclepower in the logging industry?
- That the volume of a cut tree can be determined by a scaler from only one measurement of the butt?
- That for scaling purposes the weight of a truck-load of logs can be converted to either board-feet or cubic feet?

BEAVER AS A SUPPLEMENTARY FARM CROP:

Three years ago a colony of beaver set up house-keeping on a farm near Wilberforce. Last Spring the farmer decided to harvest the marsh grass for feed and asked this department for assistance to remove the dam and the beaver.

The dam was removed and the colony of beaver set up house keeping about a mile downstream on another farm. This farmer was quite pleased to see the beaver for they supplied him with not only a good supply of water but also provided him with an opportunity of supplementing his farm income from the sale of pelts. Early this fall, after trapping just enough that a breeding stock was left, he realized \$200.00 from the fur.

The first farmer harvested the marsh grass from the three acres of formerly flooded land and realized about \$75.00 worth of feed. If he had retained the beaver he would have more than doubled his income from the portion of the farm this year, and could have done so for several more years. Who do you think realized the best of the deal?

PUT SANTA BACK IN CHRISTMAS

What this country needs is to put Santa Claus back into Christmas, says a leading editorial in The United Church Observer. The church journal says "We need an end to that pious stuff about putting Christ back into Christmas, and less worry about commercialization of the Lord's birthday."

"We need to listen to the children, forget ourselves and share their joy. They can take the myths and the symbols and the legends, and the beautiful wrappings of Christmas, without distorting the story or missing the message of it all. They know that late-century legends are as relevant as first-century myths."

"We ought to put Santo Claus back in front of the altars in our church. We need him in Sunday school beside the Cherubim and Seraphim. We should have him on the chancel steps handing out gifts to the people, and breaking bread and sharing the wine at communion."

"Over-serious parents should be helped to become big children, and sing and play and make-believe with their little children."

"For Christmas is something to sing about and shout about and ring bells about. And the expressions of our joy Santa with red suit and cotton whiskers and lights and trees and parties . . . Well, listen to the children they know!"

The Observer continues: "We want to take Santa back from the exploiters of the market-place but without destroying the marketeers or the market-places. We want the evil out, but the good kept in. And let's not fear that when we keep the secular in, the sacred will not be defiled."

"Santa Claus in the chancel will remind the world that Christmas isn't just for Christian children, and Christmas isn't just for the Christian Church, but for God's children everywhere."

"As for children growing up and being disillusioned as the literalists fear, let's not be afraid. Children are smarter than that. Let them believe in the red suits coming down the chimney unmarked by dust. Let them hang their stockings on the mantel, and listen for the tinkle of the sleighbells over the roof-tops and watch for the shadows of the reindeer on the snow."

"And then when Santa Claus has returned to the North Pole for his long winter's night, when the make-believe is all over and Christmas is gone, the mystery becomes clear, even to little children. They will somehow know that when Spirit inhabits the hearts of men, men are changed — for good. And God, who gave us both Christ and Santa Claus, will be in charge of his world."

LETTER TO THE EDITOR

December 9, 1967

Dear Sir:

May we of the Minden Area Businessmen's Association through your paper rise once again to the defence of the economic advancement of this region.

Sir, we express due consideration for Mr. Schmitt's views and beliefs in this letter of last week, but the Association fails to see how his group can object to dining lounge licences being acquired for this area.

We are not aware of having read anywhere in the worlds more prominent religious teachings where it says that it is evil to drink a glass of wine or its equivalent with a meal, perhaps Mr. Schmitt could enlighten us on this point, indeed if a much travelled person should visit our tourist establishments (as many thousands do during the course of the year) and ask for a good wine or brandy with his evening meal, what is our hotelier to say "Begone evil one lest we burn you as a witch". As Mr. Schmitt and his group well know the above practise of cuisine has been with us for many thousands of years and if it was grossly evil as Mr. Schmitt states it would have been stamped out long ago by far more learned beings than we.

As the licencing now stands it puts our catering people at a disadvantage competition wise with other areas, and as there is only a certain amount of tourist dollars available at any one given time, it is essential business wise that this area gets its share, remember this is a concern to all, for even the working man wouldn't be here if it was not for the businessman and the tourist. This fact of life seems to have evaded Mr. Schmitt.

We of the Association would like to point out that owing to the rapid advancement of modern world travel our catering and tourist establishments are being put in direct competition with some of the worlds largest chains we are positive that there are few amongst us who would wish that these good people work at a disadvantage.

We are glad to see at least that Mr. Schmitt's group is advocating industry so that we can employ more people in this area, we shall await an early statement from Mr. Schmitt as to what his group has been doing in years gone by and at present to obtain said industry.

Sir, organizing a vote against the dining lounge licences and lounge licences is in our view a direct attempt to delay the economic recovery of this region, and we would lay at the door of Mr. Schmitt and his group these most serious consequences.

Sir, I remain your obedient servant,

E.W. Cross

Secretary, Minden Area Businessmen's Association.

WOODS, WATERS AND WILDLIFE

By James Woodford

Brightening the home with twigs boughs and wreaths of holly is one of the oldest and happiest of Christmas traditions. The custom of bringing holly into the house dates back into even earlier centuries. In ancient Rome during the gay Saturnalia, midwinter feast of the god of sowing and husbandry, Romans sent friends holly to convey esteem and good wishes.

There are two hollies native to Ontario, according to the Federation of Ontario Naturalists. They are the Mountain holly and the common winterberry holly,

sometimes called black alder.

Mountain holly is an erect, much branched shrub of moist places growing to a height of ten feet or more. The leaves are thin and smooth and bright green above. The fruit is a purplish red to crimson berry about one-quarter of an inch in diameter and borne on a slender purplish stalk.

It is found in moist situations low places, swamps and damp woods, especially the edges of sphagnum bogs or tamarack swamps.

Mountain holly is widespread in southern Ontario, but commoner north of the Carolinian zone

to 49 degrees north latitude.

Common winterberry holly or black alder is an erect shrub, growing ten to fifteen feet in height. The leaves are sharply serrated and are a dull or dark green above.

The fruit of the winterberry is a bright orange or red berry about one quarter of an inch across. They occur singly or in small clusters on short stout stalks. They remain on the plant well into the winter.

The common winterberry holly grows in moist situations such as swampy woods and thickets, peat bogs, or low land bordering swamps, bogs and roadsides. It is widespread throughout southern Ontario and north to about 48 degrees latitude.

Unlikely many of the hollies both the mountain and the common winterberry holly shed their leaves in the Autumn. However the berries remain on the branches until mid-winter and a cluster of these shrubs in full fruit adds much gaiety and beauty to an otherwise drab landscape.

Of the 600 known species of holly — the English holly is the one most prized for Christmas decorations, with American holly as runnerup.

Earlier residents of this continent had already perceived the value of holly. Certain Indians used holly as a badge of courage and a favour that would ensure success in battle. Indians of southern tribes drank holly tea to give them strength and courage in battle.

PHEASANTS, DUCKS AND DEER

The poor weather appears to have dampened the spirits of some of the hunters at Presqu'ile Provincial Park. Licences sold to date are slightly down over last year. Hunting success has been good equalling that of last year at 1.5 birds per man. The man with the dog does much better.

Inclement weather has proven to be a boon to the duck hunter at Presqu'ile Park, Brighton. A recent bag check of 40 hunters carried out by A.E. Goodrich, Assistant Park Superintendent, showed a count of 149 ducks. Twenty three of the forty had their count.

To date 446 hunters have participated under the special Park Migratory Bird hunting permit. This is a 5% rise over the same period last year. The season ends December 16th.

The deer at Presqu'ile are back. Presqu'ile Park staff have estimated that nearly all of the herd (35) have returned for the winter.

These deer leave the Park in early summer, before the campers come, to feed in the nearby grain fields and return in the fall for protection.

Lately a large buck with a rack of 8 points has been seen frequently.

SPORTS

WITH BOB BEENEY

Anyone interested in the sport of badminton or square dancing as a recreational pastime should register for the classes by December 21st at the Haliburton Highlands Secondary School.

These two classes are offered on the condition that a sufficient number register by the date mentioned above.

It is requested that any person that registers be serious about attending classes.

Square dancing will take place on five nights. The dates are January 9, January 23, February 13, February 27, and one session in March.

Badminton will commence on January 16th and run for five sessions also. The other dates are February 6, February 20, March 5, and March 26th. These two courses are for both men and women. There are excellent instructors available so anyone interested should register immediately.

Reg Welch has been elected as Carnival Chairman for the Minden Winter Carnival for 1968. The Carnival will be held on February 2, 3, and 4th. Reg has been a faithful committee worker on the carnival for years and no doubt he will prove to be a very successful chairman.

At one time most of the activities centered around the arena in the last few years most of the activity takes place at the fairgrounds where the snowmobile is King.

Anyone interested in accommodation for the weekend should reserve a spot right away since accommodation is difficult to obtain.

The Minden Bantams are having a tough time getting untracked having suffered two more loses this past four days.

On Saturday afternoon in Bobcaygeon they were beaten by a score of 7-5 even though the game could have gone either way right up to the last bell.

The bright spot for Minden during the game was four goals by Bev Hicks.

Tuesday night they were trounced by Haliburton by a lopsided score of 4-1. Haliburton had a 13-0 lead going into the third period when Minden came to life and the two teams matched goals in the final twenty minutes.

Their next game is scheduled for December 22nd. in Minden against Kinmount. If ice is not available it is possible the game will be played in Haliburton on December 20th.

Tender

Canadian Red Cross Society, Minden Branch, will receive tenders for the painting of the interior of the Red Cross Hospital Minden, Ontario.

Specifications and other information can be obtained from the nurse in charge — Mrs. Grace McKay.

Tenders should be sent to Mr. J. O. Jackson, President of the Minden Red Cross Branch, not later than December 31st, 1967.

**TAX ASSESSORS OFFICE
DEATH AND TAXES ARE INEVITABLE**

Since at least the days of the Roman Empire when taxes were collected from merchants' caravans, the tax assessor has been viewed with a jaundiced eye by many of those who have to pay the tax. Nevertheless, over the centuries taxes have been a necessary evil to support various levels of government, which in turn are faced with the problem of providing the services expected by the taxpayers. In many ways it is a vicious circle.

Here in Minden, we have a very dedicated man in John Hill, who was appointed by the council of this municipality as the assessor in 1950.

Mr. Hill's assistant is Ivan Cooper, who graduated from the commercial course at H.H.S.S. this year, and was employed by council in June. At present both Ivan and John are taking a three year course for municipal assessors from Queens University.

Assessors must now be licensed by the Province. To obtain a license, certain qualifications are necessary, plus the personal payment of \$10.00 fee annually.

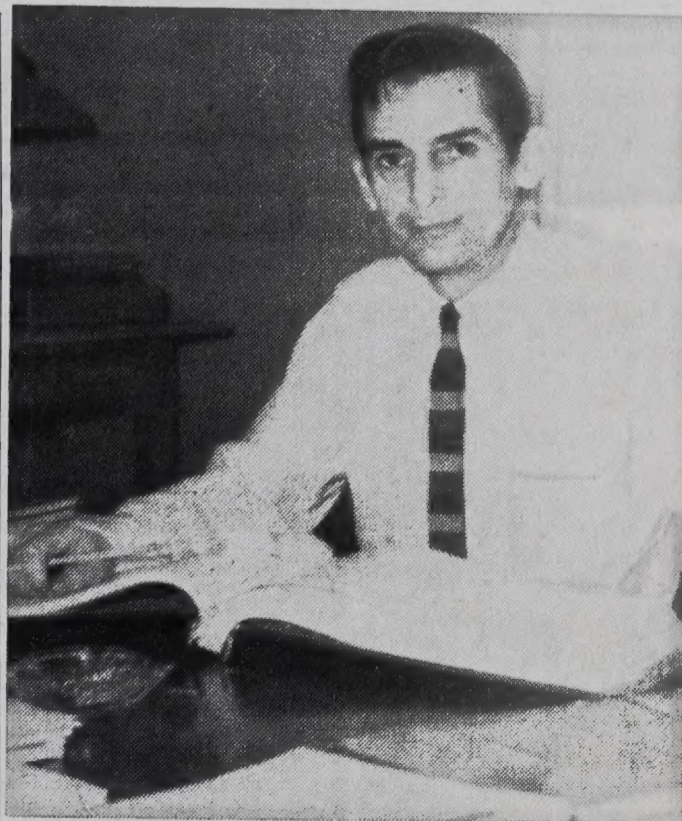

Looking at the assessment roll when Mr. Hill first took office, the assessment was at 333,000. The recent assessment made this year is at 1,609,000. Quite a difference, and we might add, much more work is involved, with many more headaches.

Mr. Hill explained, "the normal mileage travelled throughout the Municipality per year in the exercise of duties is approximately 6,000 miles."

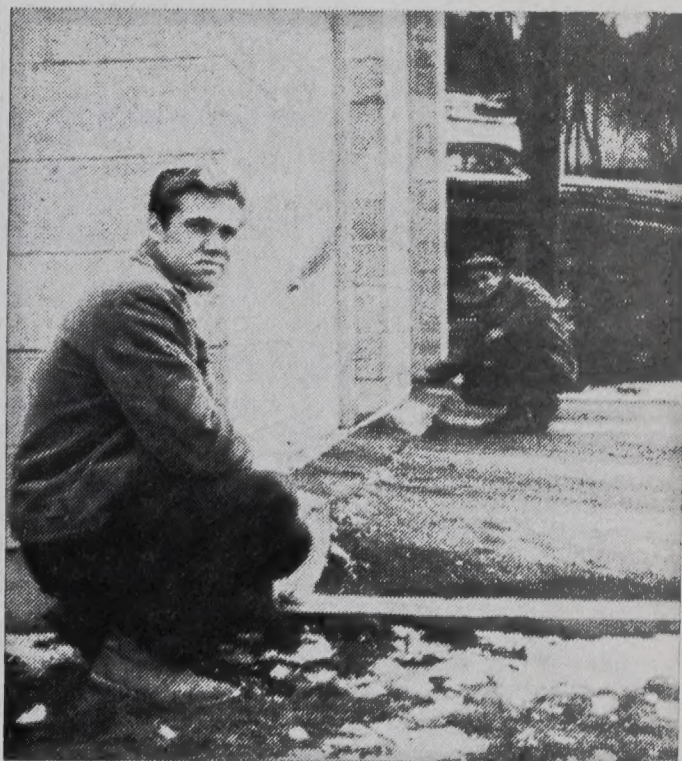

Mr. Hill went on to explain, "while the assessor does not establish the tax rate or indeed have anything to do with taxing directly, it is upon his work that the whole municipal tax structure rests. Throughout the years there have been many assessors in our three townships and during that time the job has increased in complexity."

"The job of the assessor is not now, and never was, simply a matter of copying the previous year's assessment roll. He must continually strive to produce equality in assessment which in turn will produce equality in taxation."

Mr. Hill's great grandfather, Atlas Hill was a pathmaster of Minden Township in 1893. Mr. Hill's Grandfather, John S. Hill was Warden of this county in 1918, and his father Harold H. Hill served twice as Warden in 1931 and 1941. It is likely John's keen interest in municipal affairs is a result of such a distinguished background.

John Hill Municipal assessor is pictured above, working on roll. This job is one of the more difficult positions in municipal affairs, for he deals with everyone in three townships.

Some 6,000 miles are travelled each year, assessing property. Pictured here is Ivan Cooper (foreground) and John Hill as they measure a building, only one phase in establishing assessment.

WEDDING CALLOW - COULTER

St. Pauls Anglican Church Minden was the setting on November 4, 1967 at 4 p.m. for the wedding of Faye Marjorie, daughter of Mr. and Mrs. Harold Coulter, of Minden and William Gordon son of Mr. and Mrs. Ralph Callow Port Credit. Officiating clergyman was the Rev. K. Thatcher.

The organist was Mrs. D. James of Minden.

The bride was given in marriage by her father and looked lovely in her floor-length orchid chiffon gown enhanced with a jewelled neckline and elbow length sleeves. Her softly flared skirt fell from an appliqued empire

waist delicately beaded, with a train of white lace with matching gloves. She chose a flowered headdress with shoulder length veil in matching shade. Her cascade bouquet was of white and mauve Chrysanthemums. The maid of honour Miss Beverly Ann Coulter, sister of the bride wore a floor length chiffon sheath with a matching overskirt in yellow adorned with an empire bodice and tiny sleeves of imported lace. She carried a cascade bouquet of bronze shastamums. The bridesmaids Mrs. Dale Coulter sister-in-law of the bride and Miss Nancy Smith neice of the

groom both wore blue brocade. They each carried a nosegay of white and yellow shasta mums.

The best man was Mr. George Anstee of Scarborough and ushers Mr. Dale Coulter brother of the bride and Mr. Ken Callow brother of the groom.

The reception was held at St. Pauls Parish Hall, when the brides mother wore a blue wool dress and matching hat with white accessories and corsage of pink sweetheart roses, accompanied by the grooms mother wearing a blue nylon lace gown, with matching hat blue accessories and a corsage of pink sweetheart roses.

For the honey moon trip to the Maritimes and New England State the bride chose a three piece beige all wool nailhead tweed suit and a corsage of red sweetheart roses.

The newly weds will reside at 529 Pinedale Ave. Burlington.

Guests were present from Burlington, Kirkfield, Port Credit, Toronto, Grand Valley, Lindsay, Oakville and Gavenhurst.

FERTILITY PILLS

The causes of sterility lie one-third with the male, one-third with the female, and one-third with the two combined. For fertilization there must be potent spermatozoa from the male, and the female must have open tubes and must ovulate — that is, produce an egg. The Ontario Medical Association says the so-called "fertility pills" are mainly used to correct cases in which ovulation is not occurring regularly.

There are three approaches to the correction of infertility.

SOME GUIDELINES FOR DECORATING YOUR HOME AT CHRISTMAS

By

Janet-Elaine Rogers

Decorating Consultant

Canadian General Electric

Planning to entertain this Christmas? If so, the welcome you give your guests as they step into your front hallway can be brightened by using lighted Christmas decorations such as evergreen boughs with a cluster of Snowball lights set on the hall table.

This is easy to make. First, wire or string together a few branches of fir or cedar, then arrange five or six Snowball lights in a tight cluster. Snowball lights are white during the daytime, and make an eye-catching decoration against the dark green of the fir or cedar. In the evening when they are lit, they become beautiful pastel shades of blue, green, red, violet, yellow and white.

Probably no hallway is quite complete without mistletoe, the symbol of love. Legend has it that the maid who does not get kissed under it is doomed to spinsterhood for the year to come. An old fashioned "kissing hoop" can be hung on a hallway ceiling fixture. Simply fix two embroidery hoops, one inside the other at right angles, and tie your mistletoe in the centre. A cluster of green Lighted Ice lights, attached to your ceiling fixture, and covered with sprigs of evergreen boughs, is bound to catch your male guests' attention!

PICTURE WINDOWS

One of the most attractive ways to decorate windows is to use strings of lights — the outdoor type — framing your window. If you set your tree near the window outsiders can catch a glimpse of it, too.

In addition, you can cut out angels, stars and snowflakes from coloured foil paper and stick them in unique designs on the window pane. To add more sparkle, coat the facing sides with an adhesive such as rubber cement or clear nail polish and sprinkle glitter on them.

You can arrange branches of evergreens attached to the drape track in the valance above so that the evergreen tips hang down at an angle across the top of the window pane. String gaily coloured Sparkle lights in the branches so they are visible outdoors as well as in.

On the window sill, place a centre decoration of your choice, perhaps a small Nativity scene or a simple spray of evergreen branches with gaily coloured Snowball lights. On either side you can also place one, two or three candles, each made from a cardboard cylinder (such as a mailing tube) and topped with a red Sparkle light to pro-

vide the "flame".

COLOR COMPLEMENT YOUR LIVING ROOM

For originality this Christmas, decorate your tree with the new colors and styles of Christmas lights. But don't just choose any color at all — to get a really beautiful effect it's best to study the decor of the room your tree will be in, the colour scheme of the wall, furniture and rug, before you even purchase the tree.

And tree colors! Some of the most unusual effects can be achieved by choosing the right color of tree, together with colored lights selected to complement the room decor.

For instance, if your living room has light blue walls, with furniture and rug in blues greens and white, try a Christmas tree painted white, and decorated with blue green Lighted Ice lights. Lighted Ice lights resemble a large globe of light with chips of "ice" all over it. When lit, they create a soft wintry look that is quite unusual. You can get an all-white string and socket set to blend with a white spray painted tree, enhancing the effect of the coloured lights.

A living room with white walls, with furniture and rug in burnt orange and beiges, would look very attractive with a Christmas tree painted gold and decorated with red Sparkle lights. These are a beautiful magenta red and they really do "sparkle". Gold and white Lighted Ice on a gold tree also blends in with the more formal living room with beige walls and neutral furnishings.

Mixed Snowball lights on a pink tree lends itself to the festive air if your living room has mushroom walls and rugs, with furniture and accessories in greens, pinks and browns. Snowball lights come in six beautiful pastel shades which are white as snowballs when unlit.

For the traditional living room, with green walls, and chintz covered furniture and dark woodwork, there is nothing like the natural green tree decorated with a mixture of red, green, yellow and blue Sparkle lights. However if you prefer a softer effect, try Glow lights which also come in a variety of colours.

Use gold and silver spray-painted trees carefully, for they can be a dominant feature of a room. They generally suit a larger living room decorated in formal style, or a hallway. It is better to use a small tree, as they will stand out without becoming too dominant.

Remember that your Christmas tree is usually the main

centre of interest, and should receive careful planning as to its size, shape and decoration. An overwhelmingly large tree will dwarf and destroy the beauty of your over-all decorating scheme. On the other hand, a tree too small will lose its effectiveness as the centre of interest.

It is a good rule to separate your centres of interest so that they don't compete with one another. In most living rooms, for instance, the Christmas tree is one centre of interest while another may be the mantel decoration. Consequently, separate the Christmas tree from the mantel.

NOTE: For a free booklet on Decorating Your Home at Christmas, write to Canadian General Electric Co. Ltd., 165 Dufferin St., Toronto, Ontario.

Thank You

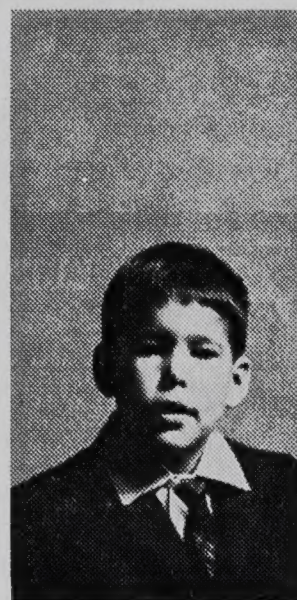

I want to thank all my supporters who worked so hard for me.

I appreciate it very much. Thanks to all.

Grace Simmons

Councillor

Ever noticed how quickly they grow?

This Christmas give them a Growth Savings Certificate... it will grow with them.

Decide now to give them the gift with a future — a Growth Savings Certificate. In 6 years, they'll receive \$10.00 for every \$7.50 you invest — a one third increase. Christmas Growth Savings Certificates are easy to buy, available in denominations of \$10.00 upwards and cashable at any time. Ask about them at any Commerce branch. Give the gift with a future...and watch it grow!

CANADIAN IMPERIAL
BANK OF COMMERCE

1968
HALIBURTON HIGHLANDS
SECONDARY SCHOOL

The following classes will be offered if a sufficient number register by December 21st. for each class.

It is important that persons signing for a course be serious about attending classes. If people sign up and only come for a few nights, it is discouraging for teachers. Some good instructors have refused to take classes, absenteeism among students in other years has caused them to feel incompetent.

TUESDAYS —

BADMINTON and SQUARE DANCING There will be five nights of square dancing on January 9th. and 23rd., February 13th. and 27th. and March.; also there will be five nights of badminton on January 16th., February 6th. and 20th., March 5th. and 26th. Badminton and Square Dancing are for both men and women. The school will supply rackets and birds.

CREATIVE WRITING — Mr. H. J. Armstrong
For adults interested in short story writing, commercial advertising writing etc.

CONVERSATIONAL FRENCH — Mr. P. Chevrier

PHOTOGRAPHY — Mr. Landman

Instruction in making home movies.

SEWING I — Mrs. C. Duncan

SEWING II — Mrs. L. Austen

These two courses are for both beginners and advanced sewers.

THURSDAYS

BUSINESS MACHINES — Mr. K. Jermyn

This course will be on 10 key adding machines, 10 key calculators, comptometers and duplicating machines.

CURRENT AFFAIRS — Mr. N. McNeill

This course is designed for adults who would like to associate with other adults interested in discussing current topics such as local municipal affairs and education, population explosion and birth control and topical films, etc.

TAILORING — Mrs. C. Duncan

WOODWORKING — Mr. P. Muller

Each person will do their own project.

TUESDAYS AND THURSDAYS

TYPEWRITING — Mrs. H. Cooper and Mrs. A. Chambers.
Students taking this course are encouraged to take both nights, but may only take one. Classes will be held on the following dates: — January 4th., 9th., 11th., 16th., 18th., and 23rd., February 6th., 8th., 13th., 15th., 20th., 22nd., 27th., and 29th., March 5th., 7th., 12th., 14th., 26th., and 28th.

There will be classes for twenty nights from January 4th. to March 28th. inclusive. Enrolment fee of \$3.00 will be paid to the instructor on the first night. It will be \$6.00 for both nights of typing.

Persons interested must send in applications before December 21st. because classes will be made up on December 22nd. and if there are not enough registering for a course it will be cancelled. It is necessary to know by that date whether there will be a class or not in order that the instructor may make preparations.

ALL CLASSES WILL BE FROM 8:00 TO 10:00 P.M.

APPLICATION

I wish to apply for the following course: —

First Choice

Second Choice

Name

Sewing II —

ROTARY CORNER

It was announced at Rotary this week that the Haliburton Rotary Club is holding Ladies night at Bonnie View Inn on Friday, December 15th. A Social hour is being held from 6:30 to 7:30, Turkey dinner will be served with entertainment and dancing following. The Haliburton Club have invited the Minden Club to attend.

The jack-pot numbers this week at the Rotary Bingo here in Minden are 56 numbers for the \$400 and 50 numbers for the special \$100 game.

Everyone is asked to remember the best decorated home prizes given out by the Rotary Club. The decorations are in keeping with the Christmas theme, with \$15.00 going to the best decorated home, and \$10.00 for the second best decorated home.

Dr. Fred Griffiths, as program chairman introduced as his guest speaker for the evening on Monday night, Mr. Allen McPhail. Mr. McPhail has been NDP candidate in recent provincial and federal elections.

Mr. McPhail spoke on his recent trip to Russia, in which he took some 28 students with him. He had some fine slides to show of the Soviet Union, and with his very keen wit and fine commentary, made a very enjoyable evening for all. Mr. McPhail comes from Cannington, and is a school teacher there.

It was a guest night at Rotary Monday, all Rotarians brought with him a guest, and with Mr. McPhail as speaker, we are sure they enjoyed themselves.

Next Monday evening the Club holds its annual Christmas party. Every Member is expected to bring their children, or someone else. Santa will be on hand to give out gifts, and Dr. Griffiths has arranged some cartoons from the film board to be shown.

Another Bingo note to mark down on the calendar, is the Turkey Bingo a week tonight. On Thursday, December 21st. The same number of games will be played, but instead of cash prizes, turkeys will be given away. However for the jackpot game, the \$100 will still be up for grabs.

**JEHOVAH'S WITNESSES
TO ATTEND WORKSHOP**

Mr. J. Norman Bradshaw, presiding minister of Jehovah's Witnesses in this area, informed us this week that a number of local witnesses have been invited to attend a three-day workshop in practical Christianity this weekend, December 15-17, in the Orillia Park St. Collegiate Institute.

Among the delegates from this area will be Mr. William Ferguson and family. They expect to join about 800 delegates to the winter conference which is to accent the need of cooperation with spiritual guidance and the danger in disregarding direction by God, the Ruler of the Universe.

The climax of the program comes Sunday at 3 p.m. with the discourse by Mr. Montague Mais of Toronto, "Will God Intervene in Men's Affairs?"

Ordained to the ministry in 1950, Mr. Ferguson fulfilled ministerial assignments in the Maritimes during the years of 1952-64. However he decided to return to the Minden area to settle and raise a family. He now serves as an associate minister of the local congregation. In the custom of Jehovah's Witnesses he accepts no salary for his work but supports himself secularly. At the convention Mr. Ferguson is Assistant Supervisor in the Personnel Department.

**RED CROSS
IS ALWAYS THERE
WITH YOUR HELP**

new...fast...powerful

**HOMELITE
XL-701**

Here's a lightweight saw with new design, more power, faster cutting, and double the fuel and oil capacity. Cuts through 15" hardwood in 12 seconds... fells trees up to 5' in diameter. Includes all the famous Homelite professional features. And the cost is so low. Try it today — then cut your way to better profits.

**RED CROSS SERVES YOU
EVERY STEP OF THE WAY**

KEEP CHRISTMAS BRIGHT AND SAFE

Electric lights have long since replaced the flickering candle flame, but decorated trees still must be properly cared for so they will not be a fire hazard. "Safety should be the foremost concern when purchasing and installing your decorations this season," says F.J. Long, Electrical Inspection Superintendent in Ontario Hydro's Georgian Bay Region.

To ensure a safe and happy holiday, unmarred by the dangers of fire, Mr. Long recommends the following Christmas safety suggestions:

1. Always buy decorative lights and electrical equipment which have been tested and approved by the Canadian Standards Association. Such equipment is identified by the CSA certification mark, a large "C" enclosing the letters "SA".
2. For outdoor decorations, buy only lighting equipment bearing the CSA mark of approval for use outdoors. Outdoor lights have weatherproof sockets to protect them from moisture, and heavier wiring than required indoors.
3. Follow carefully instructions provided for lighting equipment by manufacturers. The safety features built into equipment by manufacturers. The safety features built into equipment may be made useless by careless or improper installations and use.
4. Store the tree itself in a cool place until you put it up.
5. Keep it in a water-filled container.
6. Place the tree so that it will not block an exit.
7. Make certain that all ornaments, artificial trees, and such things as cotton batting used for decoration are fireproof.
8. Use only non-electrical ornaments on metal Christmas trees. There is always the danger that metal portions of electrical tree lights may touch the metal tree.
9. Avoid overloading electrical circuits for your home, have a competent electrician do the work.
10. If planning extensive holiday lighting for your home, have a competent electrician do the work.
11. When the holiday season is over, take down all outdoor lighting equipment and put it away until next year. Lighting equipment left on the house year-round will deteriorate more quickly under summer sun and heat.

NOTICE

To the ratepayers of the township of Anson, Hindon and Minden.

Will you kindly refrain from the parking of cars and trucks on the municipal roads and streets throughout the municipality during the winter months, so that snow-ploughing operations will not be impeded.
